### FAMILY CORNER

by Ms. Bigelow

With COVID still being present, here are some helpful tips to keep your children safe as we continue to navigate through this pandemic:

- Keep mask on children ages 2 & up when out in public
- Talk to them about social distancing
- Washing hands (can sing ABCS to ensure sufficient washing)
- Clean surfaces and objects that children touch a lot (ie doorknobs, tablets, game controllers, etc)
- If child is showing any symptoms of Covid, keep them home and call their pediatrician
- Letting them enjoy outside time with their friends outdoors vs indoors (CNN health states that the risk of catching covid is much lower if the child is playing outside)

### DATES TO REMEMBER

▪ 9/6 - Closed in observance of Labor Day

**Parents we need your help!! We are making our new family walls in our classrooms. Please bring in updated family pictures so we can get the walls completed**
